TECHNICAL SKILLS

Programming Languages
Java, C, Python, JavaScript, TypeScript, PHP

Frontend & Web
HTML, CSS, React, Next.js, Three.js

Backend & Databases
Node.js, Express, Supabase, MongoDB, PostgreSQL, MySQL

Cloud & Tools
AWS, Git, GitHub, Kali Linux

Hardware & AI
Proteus, Circuit Design, IoT Basics, TensorFlow, Basic ML

Design & Media
Figma, Premiere Pro, After Effects, CapCut, Canva

PROFILE

Highly motivated Electronics and Computer Science undergraduate with a passion for building full-stack web applications and exploring the intersections of IoT, embedded systems, DevOps, and Machine Learning. Eager to apply strong technical foundations, hardware knowledge, and diverse leadership experience to innovative technology roles.

EDUCATION

BSc Electronics & Computer Science — Expected 2028

University of Kelaniya

Diploma in ICT — Completed

ICET — Coursework included Microsoft Office, Web Development, Python Programming, and Computerized Accounting.

GCE A/L (Physical Science) — Completed

Pannipitiya Dharmapala College — Combine Maths: B, Physics: B, Chemistry: B

LEADERSHIP & RECOGNITION

AWS Student Community Day Sri Lanka — 2026

Head of Event & Logistics: Led organizational and logistical efforts for this large-scale community event. Awarded *Outstanding Contribution* for dedicated leadership and service.

MEDUSA — 2025 – 2026
